## Nouveau !

# SWISS DIVE

## Application for Smartphone and tablet

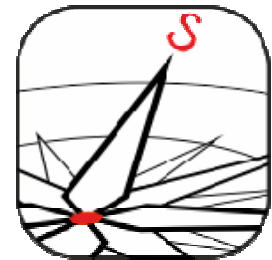

---

This application index the whole diving sites in Switzerland.  
This application **is ideal to serenely dive in new sites.**

Even at high altitude or in plain, in lake or in river, the whole diving sites are listed. And so are **about 600 sites in your hands.**

You can search a site by keyword, by your day wishes (place, difficulty, curiosity, type of area, etc) or by your current position. Following informations are shown :

- country, departement, city
- height above sea level
- site name
- difficulty
- interest
- maximal depth
- stretch of water name
- stretch of water depth
- stretch of water type
- type of area
- accessibility
- user's opinion
- coordinates (in plan)
- indication about tome and page of Christophe Cotting's guide
- access to toilets
- access to restaurant/coffee
- access to parking

What's worse than being far away from home and not be able to dive because of a broken strap !?

**Specialized shops, diving schools and inflating station** that registred themselves are also indexed (**Subscription request**).

This way, you know where to go for repair, rent, fill in your bottle or get formed during your trip.

**Lake-weather heading allows** you to know if the weather conditions are favorable to practice your favorite sport.
